SURABEE SWADHAR GREH-:- SHIMOGA

Surabee Mahila Mandali® is running the project named Swadhara Greh Home for the women and girls at Shimoga, from the Ministry of Women and Child Development Govt. of India..

We are providing shelter, food, clothing care to the marginalized women and girls leading in difficult circumstances who are without any social and economical support. More than 30 Inmates and 15 children were staying here. We will give new life to them through strengthening their self-esteem If they need any work we send them for suitable work, We will also providing emotional support and counseling to such women. We will rehabilitated them socially and economically through education, awareness, and personality through behavioral training etc. We are also providing Vocational Training like Painting, Embroidery, Knitting , Doll Making Tailoring & Candle making Computer Training & Nursing Training also.

Although Indian family as a social institution is well known for the emotional and physical support that it provides to its extended members, many a time it fails to respond to the needs of women, especially for women in difficult circumstance like widows, destitute and deserted women, women ex-prisoners, victims of sexual abuse and crimes, including those trafficked and rescued from brothels, migrant or refugee women who have been rendered homeless due to natural calamities like flood, cyclone, earthquake, mentally challenged women, women victims of terrorist violence etc. Often the support of immediate or extended family are not available due to reasons ranging from economic instability of the family to provide such support to the breakdown of joint family system to the social bias against the marginalized women as also the attitude and value attached to such women. Sometimes society itself drives such women out of the system to lead lives of sub human existence. More often vulnerable women in distress end up as beggars or prostitutes for their own survival and at times for survivals and maintenance of their dependent children.

Every month we were conducting staff meeting. We have six staffs in our Swadhar Greh. Medical doctor visited our center once in a week. Our residential Supt. maintained the Swadhar Greh. Here we provided_good & homely food to the Beneficiaries, , which is nutritious in value. For children we cooked food for their choice. The Protocol to Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children, (a) The Protocol defines trafficking as: "Trafficking in persons" shall mean the recruitment, transportation, transfer, harboring or receit of ersons, by means of the threat or use of force or other forms of coercion, of abduction, of fraud, of deception, of the abuse of power or of a position of vulnerability or of the giving or receiving of payments or benefits to achieve the consent of a person having control over another person, for the purpose of exploitation. Exploitation shall include, at a minimum, the exploitation of the prostitution of others or other forms of sexual exploitation, forced labours or services, slavery or practices similar to slavery, servitude or the removal of organs; It is realized that trafficking of young girls and women mainly occurs on account of poverty, illiteracy, and lack of access to education and schools, lack of vocational skill and employment opportunities, prevalence of age old evil practices like child marriages, low status of women and girls in society etc.

Now a days trafficking of Women / Girls (Human trafficking) are a burning issue in India. And also some anti-Social elements are making the habit of trafficking of women and Girls.
